Margaret Underwood has over 30 years experience of working in the voluntary and public sectors and now specialises in research, policy development, feasibility studies, audience and access studies, project management and delivering a wide range of training. Third Sector Development & Training operates as a management, research and training consultancy and is committed to promoting understanding of the environment and sustainable development through all its activities; promoting equal opportunities and access to learning by the use of appropriate language and active participation in all its activities.

Specialisms

Main areas of work include delivering all aspects of funding training and a comprehensive knowledge of **funding and funding systems**.

Training and facilitation work including developing bespoke training programmes in a range of subject areas, undertaking community consultations and organising and running consultation events. Using a range of techniques to ensure all voices are heard.

Planning and project management systems including tendering and contracting, project development, management, monitoring and evaluation and organisational review.

In depth knowledge of **environmental and sustainable development** which includes building and co-ordinating networks, helping organisations address sustainability and plan for climate change challenges.

All aspects **social inclusion** and **access** including organisational, cultural, physical, sensory, intellectual or financial aspects.

Research in all of the above fields.

Work undertaken outside the voluntary sector includes policy development work for Public Bodies, community consultation work for several local authorities, training in social inclusion and social enterprise for a range of statutory agencies, researching and developing learning material and writing audience and access development plans particularly for organisational applying for the Heritage Lottery Fund.

Geographical area covered

TSD&T is based in Wales and works throughout Wales, elsewhere work is undertaken anywhere easily accessible by public transport.
