

TP Consultants

Voluntary and Community Sector Governance and Management

Sue Pearlman

Specialisms

I work with many charities, providing, training, facilitation, short and long term consultancy and mentoring. My work has included in depth, or less in depth, Governance Reviews, bespoke AwayDays, Residentials Team building, basic training for trustees in roles and responsibilities, a supervising and appraisals course and ongoing consultancy and/or mentoring.

I work with groups and/or individuals and always work closely with organisations to ensure that I understand their particular needs. My work includes governance, trustee/staff relationships, leadership skills, mergers, collaborative working and evaluation of services. I also facilitate Action Learning Sets for senior managers.

I am a trustee of two charities, one local and one national. As Honorary Secretary of the national charity my role is to provide advice on process, not to take minutes! I have experience as a senior manager in charities so I bring a unique combination of experience from “both sides of the table”.

TP Consultants is an NCVO* Approved Consultancy, where I am also a Senior Consultant and for whom I write regular blogs. I am an Affiliate of the Institute for Learning, a member of the Management Development Network and a Member of the International Foundation for Action Learning.

Geographical area

I am happy to work anywhere in the UK.

Recent Clients include:

NCVO, Hertfordshire Community Foundation, Florence Nightingale Hospice, The Spinal Injuries Association, A-T Society, Community Development Agency for Hertfordshire, The Retreat Association, North Herts Council for Voluntary Service

*National Council for Voluntary Organisations
